ITALIAN DESIGN

Exclusively Distributed by **NEWWALL**

J&V Italian Design continues to illuminate the design world by weaving together classical ideas with global influences and innovative special effects. An environmentally friendly and fresh take on contemporary living, these wallcoverings are realized through state-of-the-art techniques, contrasting details and sumptuous design.

501 Collection

Today's design trends are given a graphic twist. Etnico and Etnico Afro take you to a continent rich with handcrafted textures. Dragone brings you the Asian influences of tarnished bronze and pearlized white. Damasco and Ornamenta are styled after the elegance and quality of classic British prints, with velvet and metallic touches.

701 Collection

Invite the beauty of the skyline into your space, with the gunmetal greys, oil-slick blues, skylight whites and polished steel of Cityscape. Windows and Grill further amplify these architectural elements to great effect, while Mirror sees multiple elements reimagined and given a mosaic treatment.

901 VIP Collection

The "Very Important Paper" Collection uses high-tech innovation to produce sumptuous textured designs with metallic flecks and grains of sand, featuring damasks, stripes, waves, optical dots and more. Despite the delicate look, these non-woven wallcoverings are scratch-resistant.

301 Collection

Exotic animal skins have always been part of fashion's most durable accessories. J&V reimagines these textures with embossed Crocodile, Ostrich, Chameleon and Reptile wallcoverings suitable for public spaces and large areas. Hotskins will enrich any environment with unconventional style.

750 Collection

This bold collection features elegant fabric-backed wallcoverings in two innovative finishes: a bold square basket-weave texture and a burnished metal. Conceived to enhance large surfaces and high-traffic areas, the metallic finishes are irresistible to the touch.
